

Quick Introduction on how to use Schoology

Welcome to Saratoga Central Catholic's Schoology and what is Schoology?

Schoology is an online course management system that allows teachers to create and manage academic courses for their students. It provides teachers with a method of managing lessons, engaging students, sharing content, and connecting with other educators.

You and your student will find course descriptions, syllabi, homework, assignments, course material, links and other educational content. Students and parents will now be accessing course information digitally.
